

Medical and Special Needs Boarding

We are a fully staffed veterinary hospital, and are pleased to meet your pet's medical needs while they are staying with us!

Cat Boarding

We offer a cat-only boarding facility that provides an area free from the constant hustle and bustle of walking dogs!

We also offer kitty playtime with one of our staff members, so your feline friend can have some one-on-one company while you are away.

Dog Boarding

Our standard boarding includes spacious housing, feedings, cleanings and, of course, the TLC of our staff!

For more active pets, however, we do offer several additional services including walks and playtime.

Doggie Daycare

We offer full and half-day daycare service featuring extended hours and quick drop-off / pick-up processes for our on-the-go pet parents.

Benefits of daycare include:
socialization, supervised play and peace of mind!

Can I Bring My Own Bed or Toys?

While we are happy to accommodate your canine/feline friend's needs, we discourage the use of personal bedding & toys.

Beds & toys for in-home use are not well-designed for a boarding facility setting and are challenging to clean and properly maintain during your pet's stay.

If you prefer to bring your own pet items, please understand that we cannot guarantee its safe return.

Personal items will fall under the "Deluxe Bedding Package" guidelines, at the additional fee of \$5 per day.
